

SmartSeal® Lidding with Tamper Evidence Makes Your Package Smarter, and Your Brand Stronger.

The performance and benefits delivered by your product's packaging, say a lot about the quality of your product and your brand.

To complement our tray and tub offerings, TOPPAN provides a range of peel/reseal lidding solutions with options for anti-fog, high quality graphics, and tamper evidence.

By making appearance, convenience and product integrity all part of our package, we can help drive product preference for your brand.

Features

- Patented Tamper evidence design
- Delivered in roll form
- Integrated high-quality graphics
- Strong seal bonds between the lidding film and tray
- Customized opening features: location of pull tab, size of opening
- Peels open cleanly and allows for multiple reseals
- Anti-fog

Benefits

- Extended shelf life and optimal product quality
- Runs on existing equipment (tray sealers and FFS machines)
- Shelf appeal and consumer attractiveness
- Product protection and excellent stacking strength
- Consumer convenience
- Customizable solution for desired performance
- Excellent product containment, also offers portion control
